Dear Citizens of Luxville,

Please join us to celebrate the artists of our beautifully brilliant city. Luxville 5 is an exhibition and film premiere that revels in the artist as muse: inspired & inspiring.

Is creativity the proposition for an independent spirit?

With a love of pop, colour and the unusual, Luxville creator Erin McCuskey, engages audiences in her image work through storytelling and cinematic stylings.

Luxville 5 begins the carousing of a transmedia fable, one story in many places. Won't you visit with us in the first joyous event in the journey of Luxville?

With love
